The **High Voltage Forklift Strobe Light Series** offers three compact beacon solutions designed for universal voltage compatibility. Available in SM807F (60 SMD Micro Dome), SM814F (80 SMD 5730 Micro Dome), and SM815F (30 SMD 5730 Forklift Mini Beacon), all models feature ultra-wide DC 10-110V input — compatible with virtually any forklift, industrial vehicle, or equipment without voltage converters.

Built for demanding industrial environments, each beacon features **IP66 waterproof** protection, 30CM cable out, and reliable intermittent flash. Operating temperature range from -30°C to +50°C ensures year-round performance. Compact dome and mini designs fit tight spaces on forklifts, construction vehicles, agricultural machinery, and industrial equipment where visibility is critical.
